

Solutions for the Industry!

Whether it's a large project or a small service call, we have been in virtually every facility in Louisiana, Mississippi, and southern Arkansas. We look forward to developing and continuing our relationships with our customers!

Let Our Project Management Experience Work for You!

Although we have been mostly an equipment and service provider, over the last 25 years we have been involved with or managed numerous "mid-size" projects, recently including the following:

- FD and ID Fan upgrades for a major Refinery Vacuum and Crude Units
- A 450,000 Lb/hr Heat Recovery Steam Generator, 1500 psig MAWP, 950 degrees F
- A Low NOx burner project involving 30 burners on 3 boilers, complete with major ID fan modifications, flue gas recirculation fans, all connecting duct work, along with major windbox modifications

Please find below a list of available equipment and services:

- Boilers (O and D style, HRSG's)
- Burners (Low NOx, Ultra Low NOx, Duct Burners)
- Water Treatment (Clarifiers, Ion Exchange, RO, Polishing, Filtration)
- Cooling Towers (New, Repairs, Maintenance)
- Fans and Blowers
- Heat Exchangers (PHE, S&T, Hairpin)
- Dampers (Slide Gates, Louver, Diverters)
- Expansion Joints
- Stoker Parts and Assemblies
- Condenser and Heat Exchanger Restoration
- Lubrication Enhancement/Conditioning

A Manufacturer's Representative serving the various industries:

- Refineries
- Power
- Petrochemical
- Chemical
- Pulp and Paper
- Wood Products

Let Our Experience Work For You!

EQUIPMENT, SERVICE, ENGINEERING AND DESIGN

Regarding the products offered, we have significant experience in design, application, installation and service. We'll go the extra mile to implement your project seamlessly!

Kinetics Unlimited represents the following quality manufacturers:

Robinson Industries: Manufactures precision engineered fans. Specializing in high alloy and high temperature designs. Offers repairs, rebuilds, and modifications to other OEM fans.

Victory Energy: A full service Boiler and Heat Recovery manufacturer with capabilities up to 2000 psig, and capacities up to 450,000 PPH. Victory now offers their own line of Low and Ultra Low NOx burners.

Graver / Ecodyne: Manufactures deaerators, clarifiers, filters, ion exchange, reverse osmosis systems, condensate polishers and more. We design, engineer and upgrade water & wastewater treatment equipment and control systems for utility and industrial applications.

SPX Flow APV: APV, now a part of SPX Flow, manufactures both gasketed and fully welded "plate and frame" heat exchangers for Industrial applications. APV will always strive to find the perfect solution.

Fox Equipment: High quality Louver and Slide Gate Dampers, Diverters, and Expansion Joints.

Amertech Tower Solutions (ATS): ATS is a single source for new cooling towers, cooling tower parts, repair, and maintenance services. ATS offers competitive prices with expert technicians to oversee the installation, repair, and maintenance of your cooling towers.

Powerhouse Technology: A major supplier of parts, components, and assemblies for fuel handling and ash systems. Capabilities include Stokers, CFB's, Pulverizers, Conveyors, etc

CTI: Utilizes thin wall inserts (of various lengths) and full length liners to bridge damaged sections of tubes. Repairs include condensers, feed water heaters, fin fan coolers, shell and tube

Cataract Steel: CSI serves the heat transfer needs of all industrial sectors. Cataract offers designs in Shell and Tube, Hairpin, Extended Surface and also offers special engineered solutions.

Fluitec: Provides leading edge technologies to maximize lubricant life and plant reliability, by utilizing fluid enhancement (Boost AO and Boost VR), contamination control (ESP), and condition monitoring (Ruler).

ABOUT US

Kinetics Unlimited, a manufacturers representative, offers equipment and services to the Louisiana, Mississippi, and Arkansas geographic territories. Since our founding in 1994, our goal has been quite simple, to offer the finest products and services available to the industrial marketplace.

Our primary focus over the last few years has been to provide solutions for boiler and furnace operations, along with thermal transfer applications.

Should you desire brochures, technical specifications, or other engineering documents, please feel free to contact us. We have amassed an extensive database and will gladly help with budget quotes, cut-sheets, or other information.

Kinetics Unlimited has always strived to offer the best in equipment and services, but we want to go beyond that. It is our desire to "adopt an attitude of ownership" of your facility and not to "just sell something." Of course, we are all in the business to grow and prosper, but never at the expense of our customer's long term goals.
